*MFAs Explore Intersectional Representation in AI Art*

## BLACK BEAUTY

Beauty is in the eye of the beholder, but what happens when the beholder is a machine? Dajonea will showcase her findings of the beauty of blackness and its output with artificial intelligence generative images.

## AI'S GAYDAR

How good is the AI's "Gaydar"? Lindsay will explore how sexual orientation and queer identity materialize in AI "text-to-image" platforms, NightCafe and Midjourney.

## OVERCOMING TRANSPHOBIA

Graham noticed that transphobic trolls used AI art to create caricatures. These caricatures did not fit the narrative he saw in the vibrant trans community. He began using Midjourney to generate images he found impactful and uplifting to the transgender community.
